

282. (Newly Added) A sheet of printable media, comprising:
a facestock sheet construction having a front side and a back side;
a solid liner sheet releasably secured to and covering at least substantially the entire back side;

facestock continuous through-cut lines through the facestock sheet construction to the back side but not through-cut through the liner sheet;

the through-cut lines defining at least in part perimeter edges of printable media;

the back side of the facestock sheet construction forming back side surfaces of the printable media;

areas of the liner sheet covering back sides of at least substantially all of the through-cut lines and thereby holding the printable media together when the sheet of printable media is fed into a printer or copier for a printing operation on the printable media; and

the liner sheet and the through-cut lines allowing the media to be removed from the liner sheet and separated after the printing operation into individual printed media.

283. (Newly Added) The sheet of printable media of claim 282 further comprising a layer of adhesive between the facestock sheet construction and the solid liner sheet.

284. (Newly Added) The sheet of printable media of claim 282 wherein the solid liner sheet covers all of the back sides of all of the facestock cut lines.

285. (Newly Added) The sheet of printable media of claim 282 wherein the solid liner sheet extends the entire width of the facestock sheet construction.

286. (Newly Added) The sheet of printable media of claim 282 wherein the facestock sheet construction includes a facestock sheet and adhesive sandwiched between the facestock sheet and the liner sheet.

287. (Newly Added) The sheet of printable media of claim 282 wherein adjacent ones of the printable media directly abut one another and share common edges.

288. (Newly Added) The sheet of printable media of claim 287 wherein the facestock sheet construction includes a facestock sheet and adhesive on a back side of the facestock sheet and to which the solid liner sheet is adhered.

289. (Newly Added) The sheet of printable media of claim 287 wherein the facestock cut lines are die cut lines.

290. (Newly Added) The sheet of printable media of claim 282 wherein the printable media are arranged in a matrix on the facestock sheet construction.

291. (Newly Added) The sheet of printable media of claim 290 wherein the matrix includes two columns directly adjacent one another.

292. (Newly Added) The sheet of printable media of claim 282 wherein an edge of the facestock sheet construction opposite to the infeed end edge is calendared.

293. (Newly Added) The sheet of printable media of claim 282 wherein the facestock sheet construction is a glossy cardstock.

294. (Newly Added) The sheet of printable media of claim 282 wherein the solid liner sheet is bonded to the back side of the facestock sheet construction without adhesive.

295. (Newly Added) The sheet of printable media of claim 282 wherein (a) the facestock sheet construction includes left and right side edges, (b) the through-cut lines include frame cut lines and grid cut lines, (c) the frame cut lines include first and second side cut lines spaced in from the left and right side edges respectively, and disposed parallel thereto, and first and second end cut lines spaced in from and parallel to the first and second end edges, both of the end cut lines engaging both of the side cut lines, the frame cut lines defining a central area on the facestock sheet construction, (d) the grid cut lines defining a grid disposed in the central area, and (e) the grid cut lines and the frame cut lines separating the central area into the printable media.

296. (Newly Added) The sheet of printable media of claim 282 wherein the facestock sheet construction includes a tag sheet.

297. (Newly Added) The sheet of printable media of claim 282 wherein the liner sheet comprises a densified bleached kraft sheet.

298. (Newly Added) The sheet of printable media of claim 282 wherein the facestock sheet construction includes a layer of adhesive and a film layer on the layer of adhesive.

299. (Newly Added) The sheet of printable media of claim 282 wherein the facestock sheet construction includes a facestock sheet, an adhesive layer on a back side of the facestock sheet and a film layer on the adhesive layer, wherein the facestock sheet construction thereby defines a dry laminate facestock sheet construction.

300. (Newly Added) The sheet of printable media of claim 299 wherein the adhesive layer is a hot melt adhesive layer, the film is a low density polyethylene film, the liner sheet is a densified bleached kraft liner sheet, and the facestock sheet is an uncoated tag sheet.

301. (Newly Added) The sheet of printable media of claim 300 wherein the hot melt adhesive layer is approximately .6 mil thick, the low density polyethylene film is approximately .8 mil thick, the densified kraft liner sheet is approximately 3.0 mil thick and the uncoated tag sheet is approximately 9.0 mil thick.

302. (Newly Added) The sheet of printable media of claim 282 wherein the individual printed media comprise business cards.

303. (Newly Added) The sheet of printable media of claim 282 wherein at least some of the through-cut lines define a waste border portion of the facestock sheet construction around the printable media.

304. (Newly Added) The sheet of printable media of claim 282 wherein the through-cut lines include vertical and horizontal cut lines.

305. (Newly Added) The sheet of printable media of claim 304 wherein a top one of the horizontal cut lines extends a full width of the facestock sheet construction.

306. (Newly Added) The sheet of printable media of claim 305 wherein ends of the rest of the horizontal cut lines are spaced inwardly from the left and right side edges of the facestock sheet construction.

307. (Newly Added) The sheet of printable media of claim 306 wherein the rest of the horizontal cut lines extend a distance out beyond the outermost of the vertical cut lines.

308. (Newly Added) The sheet of printable media of claim 304 wherein the vertical cut lines include a left cut line spaced proximate to but spaced a distance inward from the left side edge, a right cut line spaced proximate to but spaced a distance inward from the right side edge, and a center cut line in the center of the facestock sheet construction.

309. (Newly Added) The sheet of printable media of claim 282 wherein the facestock sheet construction includes a cardstock sheet and the printed media are printed business cards.

310. (Newly Added) The sheet of printable media of claim 282 wherein the liner sheet comprises a base paper sheet.

311. (Newly Added) The sheet of printable media of claim 282 wherein the liner sheet has a thickness of approximately 3.0 mil.

312. (Newly Added) The sheet of printable media of claim 282 wherein the liner sheet has a thickness of approximately 2.0 mil.

313. (Newly Added) The sheet of printable media of claim 282 wherein the facestock sheet construction has a facestock end edge, and the liner sheet has a corresponding liner sheet end edge, and wherein one of the facestock end edge and the liner sheet end edge extends a distance out from the other to form a thin end of the sheet of printable media.

314. (Newly Added) The sheet of printable media of claim 313 wherein the liner sheet end edge extends the distance out.

315. (Newly Added) The sheet of printable media of claim 313 wherein the liner sheet end edge extends the distance out to form a narrow exposed strip extending the entire width of the liner sheet.

316. (Newly Added) The sheet of printable media of claim 315 wherein the narrow exposed strip is approximately $\frac{1}{2}$ inch wide.

317. (Newly Added) The sheet of printable media of claim 315 wherein the thin end defines a narrow exposed strip.

318. (Newly Added) The sheet of printable media of claim 313 wherein the thin end provides printer or copier infeed flexibility for the sheet of printable media.

319. (Newly Added) The sheet of printable media of claim 318 wherein the printer or copier is a vertical feed ink jet printer.

320. (Newly Added) The sheet of printable media of claim 313 wherein an end of the sheet of printable media opposite to the thin end is calendared.

321. (Newly Added) The sheet of printable media of claim 320 wherein the calendared end defines a thin infeed end.

322. (Newly Added) The sheet of printable media of claim 321 wherein the printer or copier is a horizontal feed ink jet printer.

323. (Newly Added) The sheet of printable media of claim 282 wherein the solid liner sheet covers the entire back sides of all of the through-cut lines.

324. (Newly Added) The sheet of printable media of claim 282 wherein the solid liner covers the entire back side of the facestock sheet.

325. (Newly Added) The sheet of printable media of claim 282 wherein an infeed edge of the sheet of printable media, along an entire width of the sheet of printable media, is thinner than a body of the sheet of printable media.

326. (Newly Added) The sheet of printable media of claim 282 wherein a lead-in edge of the sheet of printable media is calendared to improve feeding of the sheet of printable media into a printer or copier.

327. (Newly Added) The sheet of printable media of claim 282 wherein a strip of the facestock sheet construction at an edge thereof has been removed to expose a lead-in strip of the liner sheet.

328. (Newly Added) The sheet of printable media of claim 282 wherein the through-cut lines define all of the perimeter edges of all of the printable media.

329. (Newly Added) The sheet of printable media of claim 328 wherein the printable media are arranged in a two column matrix on the facestock sheet construction.

330. (Newly Added) The sheet of printable media of claim 329 wherein the printable media in each column of the two column matrix abut adjacent printable media in the same column separated only by respective ones of the through-cut lines.

331. (Newly Added) The sheet of printable media of claim 282 wherein the facestock sheet construction is a dry laminate facestock.

332. (Newly Added) The sheet of printable media of claim 282 wherein the facestock sheet construction is a tag facestock.

333. (Newly Added) The sheet of printable media of claim 282 wherein the facestock sheet construction is a non-dry laminate facestock.

334. (Newly Added) The sheet of printable media of claim 282 wherein the facestock sheet construction is a non-tag facestock construction.

335. (Newly Added) The sheet of printable media of claim 282 wherein each of the printable media is a single piece, single material card.

336. (Newly Added) The sheet of printable media of claim 282 wherein the printable media comprise a matrix block of printable business cards surrounded by a waste facestock sheet perimeter.

337. (Newly Added) A sheet of printable media, comprising:
a facestock sheet construction having a front side and a back side;
a continuous liner sheet secured to the back side;
facestock continuous through-cut lines through the facestock sheet construction to the back side but not through-cut through the liner sheet;
the through-cut lines defining at least in part perimeter edges of printable media;
the back side of the facestock sheet construction forming back side surfaces of the printable media;
areas of the liner sheet covering all of the back sides of all of the through-cut lines and thereby holding the printable media together when the sheet of printable media is fed into a printer or copier for a printing operation on the printable media; and
the liner sheet and the through-cut lines allowing the media to be removed from the liner sheet and separated after the printing operation into individual printed media.

338. (Newly Added) The sheet of printable media of claim 337 further comprising a layer of adhesive between the facestock sheet construction and the continuous liner sheet.

339. (Newly Added) The sheet of printable media of claim 337 wherein the continuous liner sheet extends the entire width of the facestock sheet construction.

340. (Newly Added) The sheet of printable media of claim 337 wherein the facestock sheet construction includes a facestock sheet and adhesive sandwiched between the facestock sheet and the liner sheet.

341. (Newly Added) The sheet of printable media of claim 337 wherein adjacent ones of the printable media directly abut one another and share common edges.

342. (Newly Added) The sheet of printable media of claim 341 wherein the facestock sheet construction includes a facestock sheet and adhesive on a back side of the facestock sheet and to which the continuous liner sheet is adhered.

343. (Newly Added) The sheet of printable media of claim 342 wherein the facestock cut lines are die cut lines.

344. (Newly Added) The sheet of printable media of claim 337 wherein the printable media are arranged in a matrix on the facestock sheet construction.

345. (Newly Added) The sheet of printable media of claim 290 wherein the matrix includes two columns directly adjacent one another.

346. (Newly Added) The sheet of printable media of claim 337 wherein an edge of the facestock sheet construction opposite to the infeed end edge is calendared.

347. (Newly Added) The sheet of printable media of claim 337 wherein the facestock sheet construction is a glossy cardstock.

348. (Newly Added) The sheet of printable media of claim 337 wherein the continuous liner sheet is bonded to the back side of the facestock sheet construction without adhesive.

349. (Newly Added) The sheet of printable media of claim 337 wherein (a) the facestock sheet construction includes left and right side edges, (b) the through-cut lines include frame cut lines and grid cut lines, (c) the frame cut lines include first and second side cut lines spaced in from the left and right side edges respectively, and disposed parallel thereto, and first and second end cut lines spaced in from and parallel to the first and second end edges, both of the end cut lines engaging both of the side cut lines, the frame cut lines defining a central area on the facestock sheet construction, (d) the grid cut lines defining a grid disposed in the central area, and (e) the grid cut lines and the frame cut lines separating the central area into the printable media.

350. (Newly Added) The sheet of printable media of claim 337 wherein the facestock sheet construction includes a tag sheet.

351. (Newly Added) The sheet of printable media of claim 337 wherein the liner sheet comprises a densified bleached kraft sheet.

352. (Newly Added) The sheet of printable media of claim 337 wherein the facestock sheet construction includes a layer of adhesive and a film layer on the layer of adhesive.

353. (Newly Added) The sheet of printable media of claim 337 wherein the facestock sheet construction includes a facestock sheet, an adhesive layer on a back side of the facestock sheet and a film layer on the adhesive layer, wherein the facestock sheet construction thereby defines a dry laminate facestock sheet construction.

354. (Newly Added) The sheet of printable media of claim 353 wherein the adhesive layer is a hot melt adhesive layer, the film is a low density polyethylene film, the liner sheet is a densified bleached kraft liner sheet, and the facestock sheet is an uncoated tag sheet.

355. (Newly Added) The sheet of printable media of claim 354 wherein the hot melt adhesive layer is approximately .6 mil thick, the low density polyethylene film is approximately .8 mil thick, the densified kraft liner sheet is approximately 3.0 mil thick and the uncoated tag sheet is approximately 9.0 mil thick.

356. (Newly Added) The sheet of printable media of claim 337 wherein the individual printed media comprise business cards.

357. (Newly Added) The sheet of printable media of claim 337 wherein at least some of the through-cut lines define a waste border portion of the facestock sheet construction around the printable media.

358. (Newly Added) The sheet of printable media of claim 337 wherein the through-cut lines include vertical and horizontal cut lines.

359. (Newly Added) The sheet of printable media of claim 358 wherein a top one of the horizontal cut lines extends a full width of the facestock sheet construction.

360. (Newly Added) The sheet of printable media of claim 359 wherein ends of the rest of the horizontal cut lines are spaced inwardly from the left and right side edges of the facestock sheet construction.

361. (Newly Added) The sheet of printable media of claim 360 wherein the rest of the horizontal cut lines extend a distance out beyond the outermost of the vertical cut lines.

362. (Newly Added) The sheet of printable media of claim 358 wherein the vertical cut lines include a left cut line spaced proximate to but spaced a distance inward from the left side edge, a right cut line spaced proximate to but spaced a distance inward from the right side edge, and a center cut line in the center of the facestock sheet construction.

363. (Newly Added) The sheet of printable media of claim 337 wherein the facestock sheet construction includes a cardstock sheet and the printed media are printed business cards.

364. (Newly Added) The sheet of printable media of claim 337 wherein the liner sheet comprises a base paper sheet.

365. (Newly Added) The sheet of printable media of claim 337 wherein the liner sheet has a thickness of approximately 3.0 mil.

366. (Newly Added) The sheet of printable media of claim 337 wherein the liner sheet has a thickness of approximately 2.0 mil.

367. (Newly Added) The sheet of printable media of claim 337 wherein the facestock sheet construction has a facestock end edge, and the liner sheet has a corresponding liner sheet end edge, and wherein one of the facestock end edge and the liner sheet end edge extends a distance out from the other to form a thin end of the sheet of printable media.

368. (Newly Added) The sheet of printable media of claim 367 wherein the liner sheet end edge extends the distance out.

369. (Newly Added) The sheet of printable media of claim 367 wherein the liner sheet end edge extends the distance out to form a narrow exposed strip extending the entire width of the liner sheet.

370. (Newly Added) The sheet of printable media of claim 369 wherein the narrow exposed strip is approximately 1/2 inch wide.

371. (Newly Added) The sheet of printable media of claim 369 wherein the thin end defines a narrow exposed strip.

372. (Newly Added) The sheet of printable media of claim 367 wherein the thin end provides printer or copier infeed flexibility for the sheet of printable media.

373. (Newly Added) The sheet of printable media of claim 367 wherein the printer or copier is a vertical feed ink jet printer.

374. (Newly Added) The sheet of printable media of claim 367 wherein an end of the sheet of printable media opposite to the thin end is calendared.

375. (Newly Added) The sheet of printable media of claim 374 wherein the calendared end defines a thin infeed end.

376. (Newly Added) The sheet of printable media of claim 375 wherein the printer or copier is a horizontal feed ink jet printer.

377. (Newly Added) The sheet of printable media of claim 337 wherein the solid liner covers the entire back side of the facestock sheet.

378. (Newly Added) The sheet of printable media of claim 337 wherein an infeed edge of the sheet of printable media, along an entire width of the sheet of printable media, is thinner than a body of the sheet of printable media.

379. (Newly Added) The sheet of printable media of claim 337 wherein a lead-in edge of the sheet of printable media is calendared to improve feeding of the sheet of printable media into a printer or copier.

380. (Newly Added) The sheet of printable media of claim 337 wherein a strip of the facestock sheet construction at an edge thereof has been removed to expose a lead-in strip of the liner sheet.

381. (Newly Added) The sheet of printable media of claim 337 wherein the through-cut lines define all of the perimeter edges of all of the printable media.

382. (Newly Added) The sheet of printable media of claim 381 wherein the printable media are arranged in a two column matrix on the facestock sheet construction.

383. (Newly Added) The sheet of printable media of claim 382 wherein the printable media in each column of the two column matrix abut adjacent printable media in the same column separated only by respective ones of the through-cut lines.

384. (Newly Added) The sheet of printable media of claim 337 wherein the facestock sheet construction is a dry laminate facestock.

385. (Newly Added) The sheet of printable media of claim 337 wherein the facestock sheet construction is a tag facestock.

386. (Newly Added) The sheet of printable media of claim 337 wherein the facestock sheet construction is a non-dry laminate facestock.

387. (Newly Added) The sheet of printable media of claim 337 wherein the facestock sheet construction is a non-tag facestock construction.

388. (Newly Added) The sheet of printable media of claim 337 wherein each of the printable media is a single piece, single material card.

389. (Newly Added) The sheet of printable media of claim 337 wherein the printable media comprise a matrix block of printable business cards surrounded by a waste facestock sheet perimeter.

Election/Restriction Requirement

Responsive to the Election/Restriction Requirement, Applicant elects with traverse Group C and further species W. It is respectfully submitted that the Election/Restriction Requirement is improper. It appears that the Examiner has simply taken elements from the various claims and contended that they represent different species, without relating them to the actual disclosed embodiments and despite overlapping subject matter. The Requirement further is not fully understood, especially in view of the new set of claims introduced herein. As best understood, however, all claims currently pending read on the elected species, applicant respectfully contends.

Inventorship Amendment and Petition

Please delete the name of Arthur B. Moore as one of the inventors of the invention now being claimed in view of the claim Amendment above.
